Objectives for Professionals

✓ **Through an evidence-based and experiential approach, this conference will explore the natural tendency towards unconscious biases. The content and activities will advance our understanding of how biases impact the relationships and systems we work within.**

✓ **Lawyers and clinicians will cultivate awareness of how unconscious bias impacts families in conflict and be given tools to help mitigate that bias.**

This one day Unconscious Bias Foundations Workshop will provide lawyers, clinicians and other professionals with tools and strategies to mitigate unconscious bias in their work with Families in Conflict.

Cook Ross approaches the learning about Unconscious Bias without guilt or shame, using a non-confrontational model to engage individuals and groups to bring awareness about how daily interactions, behaviours, and decision-making may impact work with children and families in high conflict.
